

Healthful Eating .. Food Labels Help!

Supermarkets sell thousands of foods. How do you make healthful choices for everyone in your family? Sometimes it seems overwhelming! The food label can help you. It's easy to use, even when your shopping trip is hectic.

Nutrition Facts on food labels tell you the calories (or food energy) and nutrients in one serving of food inside the package. Look for the nutrition information in the store, near fresh fruit, vegetables, meat, poultry, or fish, too.

- Be in control – and buy the best foods for your family.
- See how calories (food energy) and nutrients change with bigger or smaller servings.
- Compare the % Daily Values in similar foods.

READ IT before you EAT IT!

How many servings are you eating?

Calories in one serving → For two servings, double the calories. Pay attention to choose foods for a healthy weight.
